USING THE BRAND

Choosing Wisely Canada is the national voice for reducing unnecessary tests and treatments in health care. One of its important functions is to help clinicians and patients engage in conversations that lead to smart and effective care choices.

ACCEPTABLE USES OF THE BRAND

The CWC brand may only be used for the sole purpose of participating in the CWC campaign and implementing its recommendations. Usage of the brand must be consistent with the principles of Choosing Wisely:

- **Clinician-led:** The campaign must be clinician-led (as opposed to payer/government led). This is important to building and sustaining the trust of clinicians and patients. It emphasizes that campaigns are focused on quality of care and harm reduction, rather than cost reduction.
- **Patient-Focused:** The campaign must be patient-focused and involve efforts to engage patients in the development and implementation process. Communication between clinicians and patients is central to Choosing Wisely.
- **Multi-professional:** Where possible, the campaign should include physicians, nurses, pharmacists and other health care professionals.
- **Evidence-based:** The recommendations issued by the campaign must be evidence based, and must be reviewed on an ongoing basis to ensure credibility.
- **Transparent:** Processes used to create the recommendations must be public and any conflicts of interest must be declared.
